Manual record

At the stop

All
When active, allows to change all status with one click. Ease the record of school off-boarding.

Click on each name to choose the right status (is picked up, did not show, is getting off).

Space for special notes (including when child has been declared absent by a parent).

Click here to confirm when all children have been recorded.

Button [+] allows to modify the status of a child who is not shown on the list for this stop.

Record with cards

At the stop

Card reading enables easy and trustworthy on and off-boarding recording, even if a child is not expected at a stop.

Keep the **card still one second** (until you hear a validation sound).

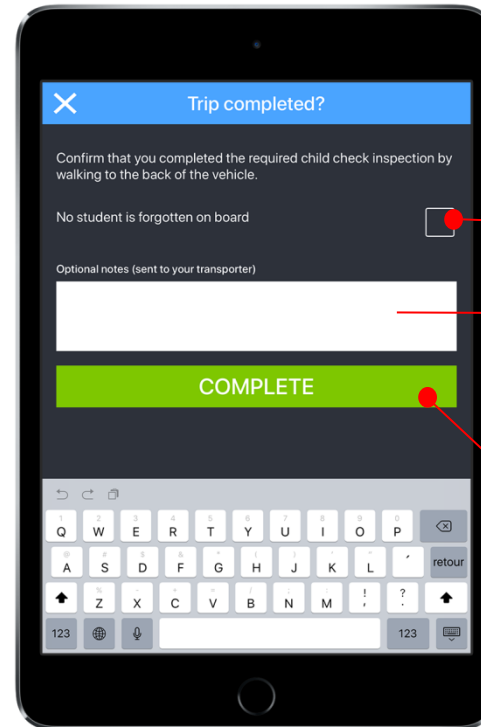

Do not hide the code with a finger.

Once all children are recorded (with the card or manually), press on « Leave stop ».

If a child expected at a stop is not recorded, the application will ask for a confirmation.

- Pick up stop : is the student really absent?
- Drop off stop : has the student really stayed on board?

Trip End

Confirm that there is no child on board anymore.

Facultative notes for the transporter (who will decide if he shall transfer them to the school district).

Click here to officially end the trip.
